LIBRARY
CARBONO PROJECT BIBLIOGRAPHY
(Up Date November 14, 2006)**

1. Becker, A. 2000. Comparative study of soil carbon stocks and microbial biomass under old-growth forest and in old pasture, on two tropical soils. Master Thesis. Göttingen University .
2. Boehm, M. 2000. Landscape-scale variation in soil respiration in a tropical lowland rain forest. Master Thesis. University of Göttingen.
3. Clark, D. A. 2002. Are tropical forests an important carbon sink? Reanalysis of the long-term plot data. *Ecological Applications* 12, no. 1: 3-7.
4. Clark, D. A. 2004. Sources or sinks? The responses of tropical forests to current and future climate and atmospheric composition. *Philosophical Transactions of the Royal Society of London. Series B. Biological Sciences* 359: 477-91.
5. Clark, D. A. 2004. Tropical forests and global warming: slowing it down or speeding it up? *Frontiers in Ecology and the Environment* 2, no. 2: 73-80.
6. Clark, D. A., S. Brown, D. W. Kicklighter, J. Q. Chambers, J. R. Thomlinson, and J. Ni. 2001. Measuring net primary production in forests: concepts and field methods. *Ecological Applications* 11, no. 2: 356-70.
7. Clark, D. A., S. Brown, D. W. Kicklighter, J. Q. Chambers, J. R. Thomlinson, J. Ni, and E. A. Holland. 2001. Estimates from the literature of net primary productivity in tropical forests. Appendix 1 - 2. *Ecological Archives* , no. A011-006-A1/A011-006-A2.
8. Clark, D. A., S. Brown, D. W. Kicklighter, J. Q. Chambers, J. R. Thomlinson, J. Ni, and E. A. Holland. 2001. Net primary production in tropical forests: an evaluation and synthesis of existing field data . *Ecological Applications* 11, no. 2: 371-84.
9. Clark, D. A., and D. B. Clark. 2001. Getting to the canopy: Tree height growth in a neotropical rain forest. *Ecology* 82, no. 5: 1460-1472.

10. Clark, D. A., S. C. Piper, C. D. Keeling, and D. B. Clark. 2003. Tropical rain forest tree growth and atmospheric carbon dynamics linked to interannual temperature variation during 1984-2000. *Proceedings of the National Academy of Sciences* 100, no. 10: 5852-57.
11. Clark, D. B. 2002. Los factores edáficos y la distribución de las plantas. In: *Ecología y conservación de bosques neotropicales*. M. R. Guariguata, and G. H. Katta, eds. Pp. 193-221. Cartago: Ediciones LUR.
12. Clark, D. B., and D. A. Clark. 2000. Landscape-scale variation in forest structure and biomass in a tropical rain forest. *Forest Ecology and Management* 137, no. 1-3: 185-98.
13. Clark, D. B., D. A. Clark, S. Brown, S. F. Oberbauer, and E. Veldkamp. 2002. Stocks and flows of coarse woody debris across a tropical rain forest nutrient and topography gradient. *Forest Ecology and Management* 164: 237-48.
14. Clark, D. B., J. M. Read, M. L. Clark, A. Murillo-Cruz, M. Fallas-Dotti, and D. A. Clark. 2004. Application of 1-M and 4-M resolution satellite data to ecological studies of tropical rain forests. *Ecological Applications* 14, no. 1: 61-74.
15. Clark, D. B., C. Soto-Castro, L. D. Alfaro-Alvarado, and J. M. Read. 2004. Quantifying mortality of tropical rain forest trees using high-spatial-resolution satellite data. *Ecology Letters* 7: 52-59.
16. Clark, M. L., D. B. Clark, and D. A. Roberts. 2004. Small-footprint lidar estimation of sub-canopy elevation and tree height in a tropical rain forest landscape. *Remote Sensing of Environment* 91: 68-89.
17. Davidson, E. A., K. Savage, P. Bolstad, D. A. Clark, P. S. Curtis, D. S. Ellsworth, P. J. Hanson, B. E. Law, Y. Luo, K. S. Pregitzer, J. C. Randolph, and D. Zak. 2002. Bellowground carbon allocation in forests estimated from litterfall in IRGA-based soil respiration measurements. *Agricultural and Forest Meteorology* 113: 39-51.
18. Drake, J. B. 2001. Estimation of tropical forest aboveground biomass using large-footprint lidar (Costa Rica). Ph. D. Dissertation. University of Maryland.

19. Drake, J. B., R. O. Dubayah, D. B. Clark, R. G. Knox, J. B. Blair, M. A. Hofton, R. L. Chazdon, J. F. Weishampel, and S. D. Prince. 2002. Estimation of tropical forest structural characteristics using large-footprint lidar. *Remote Sensing of Environment* 79, no. 2/3: 305-19.
20. Drake, J. B., R. O. Dubayah, R. G. Knox, D. B. Clark, and J. B. Blair. 2002. Sensitivity of large-footprint lidar to canopy structure and biomass in a neotropical rainforest. *Remote Sensing of Environment* 81: 378-92.
21. Drake, J. B., R. G. Knox, R. O. Dubayah, D. B. Clark, R. Condit, J. B. Blair, and M. A. Hofton. 2003. Above-ground biomass estimation in closed canopy Neotropical forests using lidar remote sensing: factors affecting the generality of relationships. *Global Ecology and Biogeography* 12: 147-59.
22. Englund, S. R., J. J. O'Brien, and D. B. Clark. 2000. Evaluation of digital and film hemispherical photography and spherical densiometry for measuring forest light environments. *Canadian Journal of Forest Research* 30, no. 12: 1999-2005.
23. Fichtler, E., D. A. Clark, and M. Worbes. 2003. Age and long-term growth of trees in an old-growth tropical rain forest, based on analyses of tree rings and ^{14}C . *Biotropica* 35, no. 3: 306-17.
24. Geron, C., A. Guenther, J. Greenberg, H. W. Loescher, D. A. Clark, and B. Baker. 2002. Biogenic volatile organic compound emissions from a lowland tropical wet forest in Costa Rica. *Atmospheric Environment* 36, no. 23: 3793-802.
25. Heincke, M. 1999. Spatial and temporal variation in dissolved organic nitrogen (DON) down the soil profile, in a tropical lowland rain forest. Master Thesis. University of Hohenheim.
26. Hurtt, G. C., R. O. Dubayah, J. B. Drake, P. R. Moorcroft, S. W. Pacala, J. B. Blair, and M. G. Fearon. 2004. Beyond potential vegetation: combining lidar data and a height-structured model for carbon studies. *Ecological Applications* 14, no. 3: 373-83.

27. Kaiser, J. 2003. An intimate knowledge of trees. *Science* 300: 566-67.
28. Karl, T., M. Potosnak, A. Guenther, D. A. Clark, J. Walker, J. D. Herrick, and C. Geron. 2004. Exchange processes of volatile organic compounds above a tropical rain forest: implications for modelling tropospheric chemistry above dense vegetation . *Journal of Geophysical Research: Atmosphere* 109, no. D18306: 1-19.
29. Kleber, M., L. C. Schwendenmann, E. Veldkamp, J. Rossner, and R. Jahn. *In review*. Mineralogical characterization of the dominant terra firme soils in a lowland neotropical rain forest (La Selva, Costa Rica). *Geoderma*.
30. Loescher, H. W. 2002. Ecosystem-level responses of carbon and energy from a tropical wet forest in Costa Rica . Ph.D.Dissertation. University of Florida.
31. Loescher, H. W., J. A. Bentz, S. F. Oberbauer, T. K. Ghosh, R. V. Tompson, and S. K. Loyalka. 2004. Characterization and dry deposition of carbonaceous aerosols in a wet tropical forest canopy . *Journal of Geophysical Research: Atmosphere* 109, no. D02309.
32. Loescher, H. W., H. L. Gholz, J. M. Jacobs, and S. F. Oberbauer. 2005. Energy dynamics and modeled evapotranspiration from a wet tropical forest in Costa Rica . *Journal of Hydrology* 315, no. 1/4: 274-94.
33. Loescher, H. W., B. E. Law, L. Mahrt, D. Y. Hollinger, J. Campbell, and C. Wofsy. 2006. Uncertainties in, and interpretation of, carbon flux estimates using the eddy covariance technique. *Journal of Geophysical Research* 11.
34. Loescher, H. W., S. F. Oberbauer, H. L. Gholz, and D. B. Clark. 2003. Environmental controls on net ecosystem-level carbon exchange and productivity in a Central American tropical wet forest. *Global Change Biology* 9: 396-412.
35. Loescher, H. W., J. S. Powers, and S. F. Oberbauer. 2002. Spatial variation of throughfall volume in an old-growth tropical wet forest, Costa Rica . *Journal of Tropical Ecology* 18, no. 3: 397-407.
36. Lovelock, C. E., S. F. Wright, and D. A. Clark. 2004. Soil stocks of glomalin produced by arbuscular mycorrhizal fungi across a tropical rain forest landscape. *The Journal of Ecology* 92, no. 2: 278-87.

37. Lovelock, C. E., S. F. Wright, and K. A. Nichols. 2004. Using glomalin as an indicator for arbuscular mycorrhizal hyphal growth: an example from a tropical rain forest soil . *Soil Biology and Biochemistry* 14, no. 4: 331-46.
38. Morehead, S. A. 2001. Geographic variation in host location cues for a dipteran parasitoid of Paraponera clavata. *Biotropica* 33, no. 3: 495-501.
39. Murillo-Cruz, A., and M. Fallas-Dotti. 2001. Georectificación de alta precisión de imágenes del satélite IKONOS y su aplicación a estudios de ecología forestal en la Estación Biológica La Selva. Undergraduate Thesis. Heredia, Universidad Nacional.
40. O'Brien, J. J. 2001. The effects of climate on the growth and physiology of tropical rainforest trees. Ph. D. Dissertation. Florida International University.
41. O'Brien, J. J., and S. F. Oberbauer. 2001. An inexpensive portable meter to real soil moisture probes. *Soil Science Society of America Journal* 65, no. 4: 1081-83.
42. O'Brien, J. J., S. F. Oberbauer, and D. B. Clark. 2004. Whole tree xylem sap flow responses to multiple environmental variables in a wet tropical forest. *Plant Cell and Environment* 27, no. 5: 551-67.
43. Oberbauer, S. F., H. W. Loescher, and D. B. Clark. 2000. Effects of climate factors on daytime carbon exchange from an old growth forest in Costa Rica. *Selbyana* 21, no. 1,2: 66-73.
